TARAhut Haazri
by TARAhut AI Builds

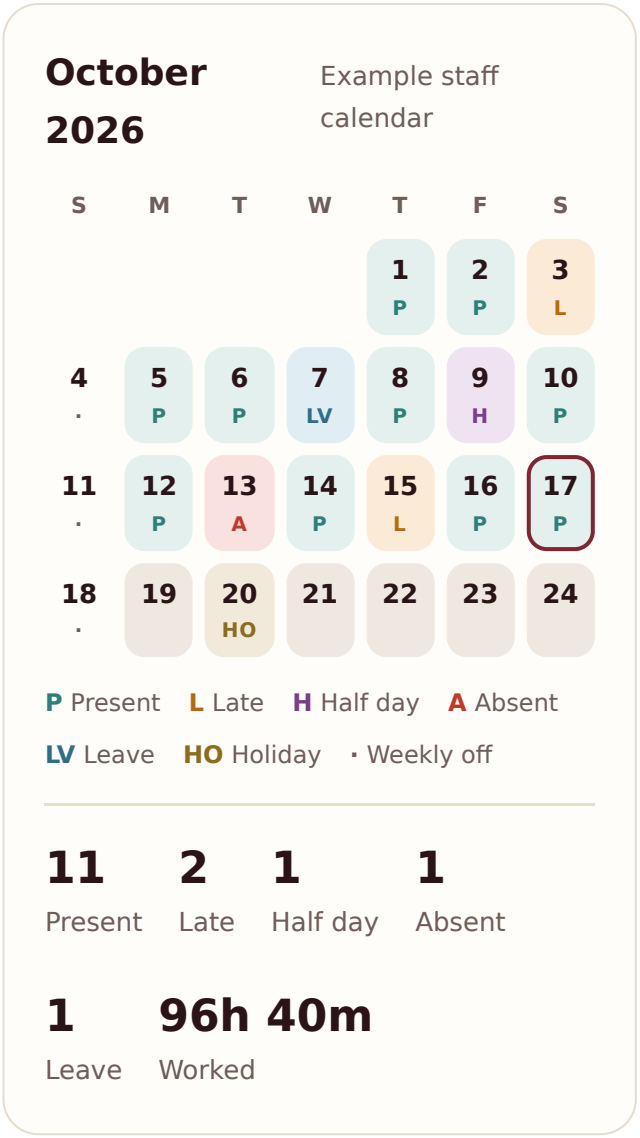

Attendance with selfie and location proof, and the salary worked out for you.

A staff attendance app for offices, shops, showrooms and site teams. Staff check in with a selfie and their location; owners see who is in, approve leave and get the month's salary sheet from the same records.

iPhone app **Android app**

Web dashboard

Many companies, one platform

A WORKING DAY

Three taps from the gate to the salary sheet

1 · Morning

Check in with a selfie

The app records the time, the selfie and the location. With location lock on, check-in only works at the workplace. Late is marked from the person's own shift.

2 · During the day

The owner sees the team

Who is in, who is late, who hasn't come, who is on leave, with selfies and distance from the office. Leave requests arrive as notifications.

3 · Evening

Check out, hours counted

Hours worked, half days and early leaving are worked out automatically and flow into the monthly sheet and salary.

WHAT'S INCLUDED

Built for staff, admins and owners

Staff app

For every employee, on their own phone

- **Sign in** with mobile number and a code sent to email, no passwords
- **Check in and out** with selfie, location and time
- **My attendance** calendar with in/out times and month totals
- **Ask for leave** and get notified when it's decided
- **Reminders** to check in and to check out, skipping offs, holidays and leave
- Dark mode, help, privacy policy, and **delete my account**

Admin in the app

For managers on the move

- **Team today**: in, late, absent, on leave, with selfies and flags
- Look back at **any earlier day**
- **Approve or reject leave** with a note
- **Add a missed check-in** or correct times, with a reason
- **Add staff**; they get a welcome email with install steps
- Switch staff off or on, resend invites, allow field staff to check in anywhere

Web dashboard

For the owner and accounts

- **Today** with selfies, map locations and distances
- **Monthly sheet** for all staff; click any day to add or edit
- **Salary sheet** calculated from attendance
- **Advances, bonuses and deductions**, with the balance payable
- **Close the month**: check for missing punches, then lock the salary sheet
- **Leave** requests in one place
- **Settings**: shifts, holidays, weekly off, late time, location lock
- **Excel / CSV downloads** of attendance and salary

YOUR RULES

Set up the way your business runs

Shifts	Morning, evening or night shifts, each with its own start, end and late time. Night shifts that cross midnight work too.
Late & half day	Late after the time you choose. Fewer hours than your limit counts as a half day; leaving early is flagged.
Weekly off	Any day of the week, paid.
Holidays	Your own list (Diwali, Dussehra, Gurpurab…), shown on every calendar and paid.
Location lock	Check-in only within a set distance of the office, for example 200 m. Field staff can be exempted.
Leave	Paid or unpaid; weekly offs and holidays aren't counted as leave days.

SALARY FROM ATTENDANCE

Pay worked out every month

PAY TYPE	HOW IT'S CALCULATED
Monthly	Salary ÷ days in month × paid days (worked + weekly offs + holidays + paid leave; half days count ½)
Weekly	Weekly pay ÷ 7 for each paid day
Daily	Daily rate × days worked
Hourly	Hourly rate × hours worked

Optional late penalty: every few lates (you choose how many) cut half a day.

Advances and adjustments: record an advance already paid, a bonus or a deduction. The sheet shows earned from attendance, adjustments and the balance payable for each person.

Month close: before closing, Haazri lists missing check-outs and leave still waiting. Once closed, the salary sheet is saved and the month is locked, so later pay or shift changes don't alter it. Reopening needs a reason and is recorded with who did it.

PRIVACY & TRUST

Fair to your staff, safe for your data

No background tracking

Location is read only at check-in and check-out.

Private selfies

Stored privately; only your company's admins can see them, through links that expire.

Each company separate

Your staff and records are never visible to another company.

No ads, no tracking

No advertising, analytics or selling of data.

Secure sign-in

One-time codes that expire in 5 minutes and lock after wrong tries.

Delete anytime

Staff can delete their account in the app; personal data is erased within 30 days.

Bring Haazri to your team

We set up your company, shifts and staff, and train your admin.
